SUMMARY

Full-Stack & Mobile Developer with production experience building scalable web and mobile applications using React, React Native, Node.js, and MongoDB. 1st place winner at the IITC College Bootcamp Hackathon for developing an AI-powered platform using the OpenAI API. Former IDF Combat Platoon Leader bringing strong ownership, leadership, and proven ability to execute under pressure.

EXPERIENCE & PROJECTS

- 2025 - Present: Dojo - Mobile Developer (Full-Stack)

Started as a software development intern and continued as a full-time developer. Developer on a production mobile application, working primarily on the Front-End with React Native (Expo), TypeScript, Redux, and React Query. Own and deliver product features end-to-end including the Calendar (Google Calendar API integration), onboarding flows, and post-related screens. Collaborates on Node.js-based backend services and REST APIs. Lead a team of 5 developers, overseeing feature planning, code reviews, task distribution, and delivery timelines.

- 2025: Full-Stack Bootcamp Projects - IITC College

"Ascendos": AI-powered personal growth platform built with the OpenAI API. Developed with React, TypeScript, Vite, Tailwind CSS, Radix UI on the frontend and Node.js, Express, MongoDB, Mongoose, JWT on the backend. Delivered secure authentication, responsive design, and smooth client-server communication. Collaborated in a small team to achieve 1st place at the IITC College Hackathon for innovation, design, and functionality.

"Reddit Clone": Full-stack social platform replicating Reddit's core features. The backend was implemented with Node.js and Express, while I led the Front-End, building a modular SPA with React, TypeScript, and Vite. Designed reusable components, hooks, contexts, and services to deliver a scalable and maintainable client architecture.

EDUCATION

- 2025: Full-Stack Web Development Bootcamp, IITC College – TechIDF Program (Certified)
- 2016 - 2019: High School Diploma - 'Haemek Hamaaravi', Yifat

SKILLS

Languages: JavaScript, TypeScript.

Front-End: React, React Native (Expo), React Query, Next.js, Redux, Vite, Tailwind CSS, Radix UI, Axios.

Back-End: Node.js, Express.js, Strapi, MongoDB, WebSocket (Socket.IO).

Tools & Practices: Git, GitHub, Postman, JWT, REST APIs, EAS Build.

AI & APIs: OpenAI API, ChatGPT, Cursor.

MILITARY SERVICE

- 2020 - 2024: IDF Combat Engineering Corps - Combat Platoon Leader

Led operational missions and managed a platoon under high-pressure conditions. Completed Officers' Training and developed strong leadership, operational planning, and team management skills.

LANGUAGES

- Hebrew - Native.
- English - Advanced.
